

International City

One of the most ambitious freehold realty developments to come up in Dubai in recent times, International City aims to provide quality housing in Dubai at affordable rates to people of all nationalities. The project, situated off the Emirates Road near the Al Warsan Lake has ten internationally-themed sectors namely, China, England, France, Italy, Japan, Greece, Spain, Morocco, Persia and Thailand. Wholly freehold, each residential cluster is evocative of the culture and dynamism of the country it represents.

International City-France is set in the large-sized neighbourhood Type II within the Residential District and is characterised by two, three and four storey residential buildings. All the properties in this cluster are freehold & embellished with long French, red and grey bricks and pilasters or half-columns. The influence of Versailles and the Parisian Rococo-style hotels & cafes is clearly discernible in the buildings of this cozy corner of International City, Dubai.

The French cluster is set amid beautifully landscaped gardens with fountains and children's play areas within the Residential District in International City, which is outfitted with retail outlets, amphitheatres, restaurants and recreational facilities. Community amenities include schools, post offices and hospitals. Each property at this sector has excellent cooling, telecommunication, electrical, water supply and parking facilities. The retail and trade areas like hotels and exhibition centres are located mostly at The Central District of International City, Dubai.

Location

The neighborhood of France is set next to the Spanish neighborhood in International City's 300 acre residential district. The neighborhood is just 4-minute walk away

from the outer limits of International City, located on the Emirates Road. It is close to Dubailand and the Dubai International Airport.

Facilities

The neighborhood is situated amidst beautifully landscaped gardens dotted with fountains. The residential district is equipped with retail outlets, amphitheatres, restaurants and recreational facilities. Community amenities include schools, post offices and hospitals. Each residence has excellent cooling, telecommunication, electrical, water supply and parking facilities. The central district of International City houses more retail and trade venues, and includes top class hotels and exhibition centers.

- French-style apartment community with modern fixtures
- Strategic yet uncluttered location with easy access to the city
- Competitively priced properties
